Skills

Programming Languages: C, Java, Python, HTML, CSS

Projects: UMEats, UMHPC Navigator, Text Adventure Game

Languages: Arabic, Bengali, English, Hindi, Urdu

Experience

University of Malaya   Kuala Lumpur, Malaysia

Project Assistant, Information Technology Department   *August 2024*

- Successfully identified, labeled, and documented over 300 network equipment racks and devices, including switches, hubs, and UPS appliances, across 26 faculties, research institutions. Ensured thorough documentation in softcopy formats.

- Conducted detailed assessments of network equipment racks, documenting exact locations, dimensions, content, and available space. Produced comprehensive network rack diagrams and provided recommendations for improvements based on the condition and management of cable systems.

- Compiled and organized critical information on network hubs and switches, including manufacturer details, port configurations, PoE capabilities, and management settings. Enhanced network performance by documenting and analyzing connections to access points, power injectors, and VLAN configurations.

AIESEC in Malaysia   Kuala Lumpur, Malaysia

Marketing Team Member, Outgoing Global Volunteer   *Mar. 2024 - Present*

- As a member of the University of Malaya AIESEC Community, I designed creative social media content to attract more participants to the Malaysian Youth Volunteer and Global Volunteer programs in collaboration with AIESEC.

- Being in marketing, I managed physical promotion booths to actively promote AIESEC's volunteering programs in Malaysia and internationally. I engage with potential volunteers, provide information, and encourage participation in initiatives aimed at fostering community development.

- AIESEC is an international "youth-run" and led, non-governmental and not-for-profit organization that provides young people with business development internships. The organization focuses on empowering young people to make a progressive social impact.

KoiPai Technology Ltd   Dhaka, Bangladesh

Intern, Operation & Marketing   *Jun. 2021 - Mar. 2022*

- Identified errors causing job failures, diagnosed underlying issues, and informed the development team to address and resolve bugs. Additionally, managed and operated the KoiPai admin system to verify new users and approve profiles based on provided documents such as Birth Certificates, National Identity Cards, and Passports.

- Brainstorming and generating ideas for social media and offline marketing to expand reach, while seeking collaborations with local hardware stores to connect with the target audience at the grassroots level.

- KoiPai - Find Your Expert is a user-friendly app connecting customers with verified and experienced technicians nationwide. It allows users to easily find and hire nearby skilled technicians for over forty types of services, free of charge. Technicians benefit by receiving job opportunities based on customer needs.

Projects

UMEats: UMEats – A platform to share surplus food from campus events at University of Malaya.

UMHPC Navigator: UMHPC Navigator – An application to analyze log files on UMHPC environment.

Text Adventure Game: Text Adventure Game – An RPG based text adventure game.

Awards

FWD Takaful Berhad   Kuala Lumpur, Malaysia
Second Prize, Promotional Video Competition   *August 2024*
